

## **Trilogy Plastics named as finalist for *Plastics News*' Processor of the Year award**

Trilogy Plastics, Inc. --- a full-service, ISO 9001 certified custom rotational molder and leader in the field of high quality rotationally molded parts and assemblies with processing facilities in Alliance, Ohio --- has been named a finalist for 2017 *Plastics News*' Processor of the Year award.

*Plastics News* Detroit — Four companies have made it to the circle of finalists for *Plastics News*' Processor of the Year Award: MTD Micro Molding, Petoskey Plastics Inc., Plastek Industries Inc. and **Trilogy Plastics Inc.**

The list includes three processors that have been finalists before. Petoskey and Trilogy were finalists in last year's competition, covering 2016. MTD was a finalist for the 2015 award.

Candidates are evaluated on seven criteria: financial performance, quality, customer relations, employee relations, environmental performance, industry/public service and technological innovation.

Since its founding, 30 years ago, Trilogy Plastics has grown dramatically and today provides manufacturing services that include rotational molding, 5-axis CNC machining and high pressure foaming --- all backed by engineering, design support and project management. Value-added processes include a wide variety of assembly, decorating, and packaging expertise, giving it the capability of serving a diversified customer base that includes, but is not limited to, the major markets of heavy truck, outdoor, Industrial, medical and consumer.
